

ABRASIVES

The Strip Away® Disc is made from a tough, synthetic fiber impregnated with abrasive grit. They are a safer alternative to wire bristle tools. These unique discs provide fast cutting action with virtually no heat build-up. The open coat design quickly cleans surfaces without damage.

Cleans and prepares awkward and uneven surfaces.

One step stripping and cleaning, no additional finishing required for painting.

USE WITH

- Electric Drills
- Air Tools
- Angle Grinders
- Bench Grinders

USE ON

- Aluminum
- Stainless Steel
- Fiberglass
- Brick & Stone
- Cement & Concrete

IDEAL FOR REMOVING

- Rust & Scale
- Paint
- Oxidation and Corrosion
- Plastic Edging
- Undercoatings, Stone Guards and Seam Sealers
- Varnish & Epoxy Paints
- Light Weld Splatter

When grinding or sanding with power tools
always wear proper protective equipment.*

Flap Discs (Zirconia)

Design allows flap to conform to curved surfaces resulting in excellent blending and contouring results. The flaps extend beyond the edge of the disc allowing smooth operation close to awkward spaces. Spacing of flaps allows operation with less heat buildup for long life and consistent finish.

Box Qty. 10

side view

The **Trim-Kut® Abrasive Disc** is a versatile tool used for grinding, sanding, cleaning and general surface preparation in Autobody Repair. It can be used for rust/paint removal, leveling welded seams and MIG-weld residue removal.

Trim-Kut® Abrasive Discs are a unique one-piece design, with the grinding surface bonded to a hard copolymer backing. It is a highly durable grinding unit that will not fly-off during use and eliminates the need for additional backing pads. The disc can be trimmed when the outside edge has been sufficiently "loaded" to the point where it is not grinding effectively, by simply placing the back of the disc against a sharp edge or object and with activation of the electric/air tool, the "loaded" portion on the outside edge can be removed from the rest of the disc creating a new edge ready for use. **Trim-Kut® Abrasive Discs** can be trimmed in such a manner right up to the mandrel.

Each box of 25 **Trim-Kut® Abrasive Discs** comes with 1 mandrel.

Maximum operating speed for a 3" disc is 21,000 RPM
Maximum operating speed for a 5" disc is 12,000 RPM

“ZIP” High Performance Cutting Wheels

- General purpose cutting of all types of steel and stainless steel.
- Fast, cool and free cutting allowing the operator to work with minimal pressure for best control.
- Excellent wheel life. Fewer changes of the wheel - increasing productivity.
- Metal hub provides greater safety and straighter cuts.
- “Type 27” hub - allows for perfectly flush cutting.

GEMTEX® BRITE PREP NON-WOVEN 6 x 9 HAND SCUFF PADS

Our 6 x 9 Hand Scuff Pads are manufactured from synthetic fibers, bonded together with specially formulated resins and impregnated throughout the web with mineral grain creating an open, three dimensional structure. These products are designed for a broad range of jobs including light duty cleaning, polishing, scuffing, finishing and for heavy duty jobs including paint, rust and corrosion removal. Manufactured from tough synthetic fibers that will not rust, they can be used for dry scuffing and finishing or may be used with water or chemical solvents. They are flexible enough to be used in hard to reach spots, yet strong enough for continuous use. They are produced in a variety of grades ranging from hand cleaning to high-speed machine use. "A Steel Wool Substitute".

MISCELLANEOUS ABRASIVES

SUPERASER™ ABRASIVE WHEEL KIT

For quick and easy removal of decals, pinstripes, bumper stickers, reflective tapes, double-faced tape from the back side of mouldings, from glass and OEM painted surfaces without any damage. Long lasting. Will not leave a sticky adhesive residue. Without mandrel, wheel fits on other popular pneumatic tools.

Wider than the standard solid disc = FASTER
Toothed wheel works cooler = Less smearing
Easier to control = Less user fatigue
Longer Life!

Item No.	Description	Box Qty.
7044	4" wheel w/mandrel	1

WARNING: DO NOT exceed 4000 RPM. Wheel could break apart and cause serious injury. Not recommended for use on lacquer paints, non-OEM finished surfaces, acrylic, lexan, plexi-glass and soft plastic substrates.

7460

File Belt Grinder (w/belts!)

Great for spot welds, welding seams, soldered connections, rust, deburring, etc.

Swiveling belt finger for narrow spaces.

For use with 13" Belts

Comes with (2) #7444 belts, (2) #7445 belts and (2) #7446 belts.

1/Box

3M Roloc™ Bristle Disc

Super tough plastic bristle brush, embedded with abrasive, wear as they clean continually exposing fresh abrasive. Bristles ride over surface cleaning contaminants without gouging surface. Use green on steel parts, yellow on aluminum parts.

Item No.	Description	Box Qty.
3M-7524	2" Green Bristle Disc	10
3M-7525	2" Yellow Bristle Disc	10
